

CBC Behavioral Times

Announcements!

Timesheets are due Friday, March 1st by 10:00 AM.

Don't forget to keep collecting supervisors signatures on the Therapist Improvement Punch cards. If you collect 10 TIPS, you get a chance to enter the Excellence Recognition Monthly Raffle.

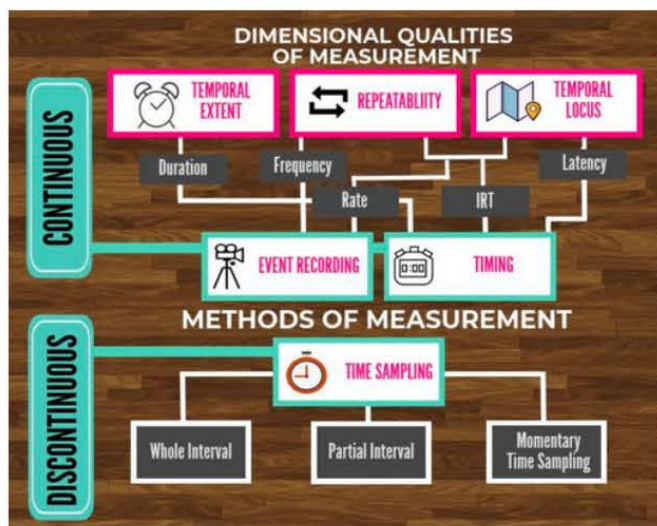

The second group of online data collection through Catalyst is now live, please be sure to reach out to your supervisor if you have any questions.

Thank you so much!

ABA Definition of the Month

Continuous Measurement: Involves recording every instance of a specific behavior (collecting data), encompassing measures such as Frequency, Rate, Duration, Latency, and Inter-response Time (IRT).

Discontinuous Measurement: Measurement that does not record every instance of the specific behavior, typically because the behavior occurs too rapidly or frequently, making it impractical to report on each occurrence. Examples include Partial Interval Recording (PIR), Whole Interval Recording (WIR), and Momentary Time Sampling (MTS).

Friendly Reminder!

Please make sure to submit your SOAP notes daily on Catalyst.

Please make sure that your tablets are charged for use during your sessions.

Personal phone usage is not allowed during sessions, unless it is an emergency.

Thank you so much!

Joke of the Month!

MAKE A SENSORY BIN OUT OF BEANS, THEY SAID. IT'LL BE FUN, THEY SAID.

Monthly Tip!

If you are having a rough session, remember to boost your client's motivation. Provide positive reinforcement contingent on your client engaging in desired behaviors (e.g., following instructions, responding correctly, demonstrating functional communication).

Thank you for all of your hard work!
